Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/18/08 has been entered.

2. Claims 5, 11, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

the phrase "a pre-formed portion of the thermoplastic resin sheet" (cl 15, ln 8) is indefinite because it is unclear whether or not it is related to the preformed sheet mentioned in lines 5-7 of claim 15. If they are the same, it should be clearly and positively recited as such.

Correction is required.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5, 11, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hrivnak et al (USPN 4388356) in view of Myers et al (USPN 4239727). In regard to independent claim 15, Hrivnak et al teach all of the claimed limitations (figs 4-8)

except fixing the sheet outside a forming portion of a cup-shaped vessel. Myers et al teach thermoforming a thermoplastic sheet that is fixed outside a forming portion of a cup-shaped vessel (figs 1-8). Hrivnak et al and Myers et al are combinable because they are analogous with respect to a thermoforming sheet. Thus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the fixing of Myers et al in the process of Hrivnak et al in order to ensure proper positioning of the film within the mold apparatus and allow for handling of the film. In regard to claims 5 and 11, such are taught by Hrivnak et al (col 4, lns 1-9; figs 4-8).

5. Applicant's arguments with respect to claims 5, 11, and 15 have been considered but are moot in view of the new ground(s) of rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571.272.1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
